## **PROGRESS AND ANNUAL REPORT 2014-2015 OF THE ORGANIZATION**

This hill area has so many difficulties to survive; even then people have been living here for centuries and have to live for the centuries. Migration to the plains and cities is not the remedies so the earnest requirement of the area to plan again a relation between human resource and natural resource management, not only traditionally or with the modern means but with a mixed sustainability and make lives of local dwellers easy. Women and children are being exploited by society and system due to poverty and miseries. Old people are alone having no help, care and sympathy. We want to develop a system by which relations between human beings and complete nature may help each other for progress and sustainability
